Cheryl,

As I had previously indicated to you the Draft Decision is in front of the Board of Selectmen for August 29. If you do not want the Board to act on the draft decision you need to send a letter to the Board of Selectmen withdrawing your request for a Special Permit. Otherwise the Board is obligated to respond your application and render a decision. You can send the letter to my attention and I will make sure it is in front of the Board of Selectmen.
Garry

Importance: High

Hi Garry, Thank you and all those involved for moving this process along.

We have decided not to pursue that site any longer, as of last week. It will not be necessary for the Board of Selectman to spend any more time on it.

Thank you.

Be Well!

Cheryl

8/23/2005

Cheryl Turgeon,
It is my understanding the Decision was not taken up by the Board of Selectmen. It is now scheduled for Aug 29.

Hi Garry, I was wondering if you had a chance to get the draft in front of the board of selectman for review, so they might be able to sign it at the special meeting Tuesday, per the email from Don?

Garry:

I do not recall whether the Selectmen have seen a draft decision yet. If they have received a draft and had a chance to comment back to you, we might be able to add this to the special meeting they are having Tuesday morning (scheduled specially to vote the "Not Your Average Joe's" Special Permit). If not, we will need to give them time to review the draft, comment and then get it on an agenda. Please advise as to whether they have seen it so we can make any appropriate adjustments to the agenda for Tuesday morning. We will be publishing that agenda tomorrow evening.

John and Maryjane:

Depending on Garry's answer, please be prepared to add this to the Tuesday morning agenda.

Don

Cheryl,
A draft decision was forwarded for the Board of Selectmen. The Board has been having a problem getting a quorum of 4 members to consider it. It is my understanding it will be taken up at their next meeting when all are present. The Board has until September 20 to

have the decision signed.

Hi Gary,

I hope you are having a great summer. I understand that the process might be slightly delayed due to vacations.

Can you please give me an update and when I might see the permit in writing? (I know you have 90 days).

I heard that after you write it, you will present it to the board of selectman for review. Is this correct? How does that affect timing?

I am working on some timeline stuff and planning and this would help greatly. Anything you could do would be appreciated.

Be Well!

Cheryl
